

Operations Memorandum

To: New Haven Board of Education Finance and Operations Committee

From: Gilda Herrera, IT Director

Date: January 7, 2021

Re: F&O Action Item Request/Approval for Agreement Renewal for Leased

Fiber Circuit WAN Solution with Crown Castle Fiber, LLC

Executive Summary/Statement: For consideration and approval to renew the agreement between the New Haven Board of Education and Crown Castle International Corporation to provide leased fiber circuit WAN Ethernet Services from July 1, 2021 to June 30, 2022.

Contractor Name: Crown Castle International Corporation

Contractor Address: 1220 Augusto Drive, Suite 600, Houston TX 77057

Is the contractor a Minority or Women Owned Small Business? No

Renewal or Award of Contract/Agreement? Renewal

Total Amount of Contract/Agreement and the Hourly or Service Rate: not to exceed \$507,000 Without Erate/\$50,700 With Erate Reimbursement

Contract or Agreement #:

Funding Source & Account #: 2020-2021 Operating Budget – Telecommunications / Internet Account #190-47200-52265

Key Questions: (Please have someone ready to discuss the details of each question during the Finance & Operations meeting or this proposal might not be advanced for consideration by the full Board of Education):

1. What specific service will the contractor provide:

Crown Castle (formerly known as Fibertech/LightTower) provides the wide area network infrastructure NHPS uses for all communications and data transmissions.

2. How was the contractor selected? Quotes? RFP? Sealed Bid or Sole Source? Please describe the selection process including other sources considered and the rationale for selecting this method of selection: Sealed bid 2019-12-1248 Crown Castle was awarded this contract based on results of RFP#2019-12-1248. Crown Castle services qualify for ERATE discounts which allows the district to receive a 90% discount on services. Crown Castle Services ae considered a Category 1 funding level and is typically approved and disbursed first. Crown Castle is included on our ERATE application for the 21-22 School Year.

- 3. If this is a renewal with a current vendor, has the vendor's performance been satisfactory under the existing contract or agreement? The vendor guarantees 1-10 Gbps up time of 99.9 %, per contract. This is industry standard.
- 4. If this Contract/Agreement is a Renewal has cost increased? If yes, by how much? No, decreased, \$2,525 per month, connections as necessary to meet network and internet requirements for the district. Cost increase within contracted award of \$507,000.
- 5. If this Contractor is New has cost for service increased from previous years? If yes, by how much? $\rm N/A$
- 6. **Is this a service existing staff could provide? Why or why not?** No, this is an infrastructure which is leased and would require the city/school district to install fiber optic cabling throughout the city, which is cost prohibitive.
