NEW HAVEN BOARD OF EDUCATION

Finance & Operations Committee

Resolution for Approval

Recommendation for facility use of 130 Orchard Street, New Haven, CT

The Board of Education approves the use of space at 130 Orchard Street (Strong School) for the school district's Science Kit Refurbishment, Storage and Distribution Center, from January 27, 2020 through June 30, 2020. The classroom space to be used cannot be significantly modified from classroom usage.

The administration will present to the board a proposal for use of surplus and warehoused space for board review and eventual approval by April 2020.

Head Start Budget Justification Narrative

Professional Development/Education		\$50,000	Opportunities for part-time employees to complete the Para Pro

		Certification as well as continuing education opportunities and professional development \$448,448.00
--	--	--

The New Haven Public Schools (NHPS) is applying to carryover \$448,448. in federal funding from the grant number 01CH010905-02-00 from fiscal year 2018-2019 to fiscal year 2019-2020. As outlined in the narrative, this funding will be used to support Head Start-specific programming provided directly by the school district. Funds have been allocated appropriately and are split between operational, supplies and professional development. The budget has been designed to support NHPS’s key programmatic initiatives.

Transportation:

\$31,000.00 has been allocated to purchase car seats and a bus tracking system. The car seats are required by Head Start Performance Standard 1303.71. These seats will be used as replacement seats as well as placed on an additional bus that will be utilized when break downs occur. Currently, First Student does not have a replacement bus for Head Start with car seats. The tracking system will be used to ensure the safety of our students and keep parents up to date with bus transportation.

Technology:

The New Haven Head Start Satellite classrooms have not received the technology updates that occurred for the Dr. Mayo School when it was opened. Our budget earmarks \$88,000.00 dollars to cover various technological needs of the satellites such as teacher laptops, desktop computers for student use, iPad for family service workers, smart boards for classrooms as well as printers.

Health and Safety:

As Head Start respects the development of the whole child \$15,000.00 was allocated for the purchase of Health materials to support the nursing staff in tending to our students’ needs as well as completing the Head Start mandated screenings as described in Head Start Performance Standards 1302.42: Child health status and care. The amount of \$15,000.00 will be used to purchase the Second Step: Social Emotional Curriculum that will support the Head Start Performance Standard 1302.45: Child mental health and social and emotional well-being.

Site Support: The budget includes \$32,000.00 for site leaders to use as they deem needed in support of curriculum and instruction. The funds are allocated for supportive classroom materials, out of school field trips as well as in school field trips in accordance with the Head Start Performance Standard: 1302.31 teaching and the learning environment.

District Play-based Learning: As a member of the New Haven Public Schools, our teachers and students will be participating in the district wide play-based learning initiative. Our investment in this initiative will guarantee the participation of the Dr. Mayo teaching staff as well as the satellites’ teaching staff. Head Start Performance Standards: 1302.31 Teaching and the learning environment 1302.32 Curricula covers this area of the budget.

Recruitment/Outreach/Attendance: Actively recruiting and enrolling students is paramount to the success of the New Haven Head Start Program. The district’s relocation of the Head Start ERSEA department to the Gateway Building has impacted the enrollment of our students. This

change in location has necessitated a change in our recruitment and enrollment process. Attendance for both children and staff has historically been an area of difficulty. The use of these funds will also be to develop attendance initiative. Head Start Performance Standards: 1302.13

Recruitment of children 1302.16 Attendance

- Billboard Advertisement
- Community Bus Recruitment Promotion
- Development of Video for Promotion and Recruitment
- Development of Video for Parent on boarding to the Head Start Program: reviews expectations for parent participation and student attendance
- Student Attendance Incentives
- Policy Council Recruitment

Travel and Conferences: The National Head Start Association, the Regional Head Start Association and the State Head Start Association all offer conferences throughout the year to strengthen all components of the program. This year it is our goal to send members from all areas of the New Haven Head Start Program to represent, to learn and to share their new knowledge. We have budgeted to send ten members of the New Haven Public Schools Program to the National Conference in Arizona including policy council members, teachers, teacher assistants and Family Service Workers. The program will also send a delegation to the state conference in Connecticut. This line item is in support of the Head Start Performance Standards: 1302.34 Parent and family engagement in education and child development services, 1302.31 teaching and the learning environment and 1302.32 Curricula.

Professional Development/Continuing Education: Our children's educational experience is only as good as the teaching staff that guides them through their learning experience. It is the goal of New Haven Head Start to cultivate the talented teaching staff by offering enrollment in the Para-Pro Program for part-time employees that would like to develop their knowledge. We will also offer the opportunity for our satellite teachers that have yet to take a class towards the completion of certification requirements.

- Para-Pro Training for Part-time staff and parents
- Continuing Education for all Staff in their identified work areas
- Professional Development Opportunities based on goal setting

Transitions: As research has shown a positive transition from preschool to kindergarten plays a role in a student's future learning and achievement. The funds in this line up will be used to help educate our Head Start parents about the transition that will take place. Our children will also receive a "Ready for Kindergarten" shirt as well as a backpack of kindergarten learning supplies. Head Start Performance Standard 1302.71: Transitions from Head Start to Kindergarten targets this area. Our Head Start will also institute a "Welcome to Head Start" program that will familiarize families and children to the program and supply them with the materials necessary for a successful school year.

- Transition to Head Start Back Pack: Pre-kindergarten
- Transition to Kindergarten: Field Trips to NHPS Kindergartens, Back Pack with Kindergarten Supplies
- "Typical Kindergarten Day" Video for parents and community members
- T-shirt Highlighting Students moving on to Kindergarten

Parent and Family Development: In accordance with the Head Start philosophy of being a program that is supportive of both children and families, the carryover budget includes \$40,000.00 for parent and family development. (Performance Standard 1302.34 Parent and family engagement in education and child development services.

Clifton Bush Jr., of New Haven, entered into eternal life on Sunday September 3, 2017 at his home. Born in Greensboro, NC., the beloved son of Gaytha (Moye) Bush and the late Clifton Bush Sr. Cherished father of Andre (Diane) Thomas, Malaika Chisholm, Kimya Bush, Bakari Bush, Shomari Bush, and Nia Moore-Bush. Loving brother of Delzora Bush, Curtis (Debra) Bush, and Wayne (Trina) Bush. Also survived by 7 grandchildren and 5 great grandchildren. Predeceased by one son Pierre Bush, one sister Dolores Bush, and one brother Gary Bush. Clifton was a college professor at Springfield College for 26 years, where he taught numerous courses mainly focused on African American History, African History, and Sociology. He was also an adjunct college professor at Southern Connecticut State University and University of New Haven. A celebration of Clifton's life will be held on Tuesday September 12, 2017 in St. Matthew's UFW Baptist Church, 400 Dixwell Ave. New Haven at 11:15am. Viewing in Church from 10-11am. Interment will be at Beaverdale Memorial Park. Condolences may be expressed at colonialfunerals.com.

BELLS & CLOCKS
SINCE 1842

Model: MCC3

Master Clock Controller

The MCC3 is designed to provide many years of worry free automatic control of your total clock system. The Verdin MCC3 is a microprocessor based clock control system comprising a high precision crystal-controlled time base, programming keypad, LCD display, and all the required interface ports. This highly flexible clock control device is capable of overseeing the complete operation of a tower clock or a street clock system. It has been designed to interface with all Verdin peripheral elements.

Technical Specifications

Power Supply

The MCC3 operates on standard 120VAC, 50-60 Hz. single phase power. It is fused for a total of six amps (nominal). The MCC3 is supplied with a ten year internal battery back-up for maintaining time and program memory during power failure.

Time Base

Superior accuracy is assured through the use of a temperature-compensated crystal-controlled time base operating at a frequency of 32.768 kHz. Accuracy shall be within +/- 5 seconds per month at a normal operating temperature of 20° C +/- 20 (Maximum variation of +/- 20 seconds per month at extremes of operating range, -40° C and 85° C.)

BELLS & CLOCKS
SINCE 1842

Tower/Street Clock Control

The MCC3 maintains accurate present time in accordance with the internal crystal controlled time base. In addition a separate register is maintained which constitutes an internal "pilot clock" for the tower clock(s) or street clocks being controlled. In case of power failure, the internal time base and actual time keeping are maintained via the back-up batteries.

During times of power failure, when external movements (tower/street clocks) are stopped, the internal "pilot clock" is also held at the time when power failure began. When power is restored this register is examined, and automatic correction of the Tower/street clock is made.

The MCC3 is cable of controlling either A/B impulse style timepieces or synchronous timepieces. Selection between either impulse or synchronous mode is made via a jumper setting. LED's on MCC3's front panel will indicate its operational state.

Daylight Saving Time (DST)

The MCC3 is provided with a fully-automatic Daylight Saving Time set function. This function maintains the proper time on both the MCC3 and the Tower/Street clock throughout the time change period. Front panel user settings allow the unit to be set in the current USA adopted system or a custom user defined system.

Hour Strike and Light Function

The MCC3 provides two time programmable external outputs intended to drive an external lighting system and/or the striker of an external hour strike bell. Front panel user settings allow the operation times for each output to be defined.

Communications

The MCC3 provides two external communication ports. The first is designed to interface with Verdin's optional GPS unit and the second provides an external RS-232 interface port. Through the MCC3 RS-232 port the time may be read or set, the hand position may be read, the light relay activated or deactivated, the hour strike relay activated or deactivated. In addition the RS-232 port provides for a seamless interface to Verdin's optional electronic carillon and chiming equipment. All functions other than the remote light and hour strike are accessible via the keypad.

New Construction

Construction in Physical Facilities

Naming of Facility

It shall be the prerogative of the Board of Education to establish the need and appropriateness for naming any school unit, which includes all outdoor and indoor facilities of the school.

1. It shall be the general policy to name schools and school facilities for persons who have attained prominence locally and nationally, or in the fields of education, science, art, statesmanship, political science, or military achievement; early pioneers of the community or the State of Connecticut; outstanding presidents of the United States of America; or geographical landmarks.
2. The general procedure for selecting a name for a school shall be as follows:
 - a. The Board shall appoint a committee comprised of two representatives of the Board of Education chosen by its President; two representatives of the Citywide School Construction Committee chosen by its Chair; one teacher/administrator representative appointed by the Board of Education; and one PTA/PTO representative appointed by the Board of Education.
 - b. The school-naming committee shall then present a recommended name to the superintendent who will forward it to the Board.
 - c. The Board shall then accept or reject said recommendation from the committee.

New Construction

Naming Facilities

The naming of school buildings, major portions of buildings, or school grounds is the responsibility of the Board of Education. In fulfilling this responsibility, the Board will make every effort to respect community preferences. Such names should be clearly identifying, widely known, and recognized.

It is the policy of the Board to name school buildings as close as possible to the time construction begins in order to lessen the confusion about the new schools.

When naming new buildings, major portions of buildings, or school grounds, the Board shall formally identify the need for a naming process for the identified school locations, as well as criteria it wishes to be considered in the process.

When naming a school building, major portions of school buildings, or school grounds the Board shall direct the Superintendent to establish a committee, subject to Board approval, comprised of the Superintendent or designee, the building Principal, faculty member, parents, community members, and, if appropriate, students to consider name recommendations for consideration by the Board. Opportunities for public input must be made available prior to the committee's recommendation to the Board. Such opportunities for public input must be publicly announced in newspapers and on the District website.

When naming new buildings, the committee shall have representation by the community members that is representative of the entire school district. The committee shall propose a list of names to the school board of not more than five (5) names for Board consideration.

If a major portion of a school building or school grounds (media center, auditorium gymnasium, field, etc.) is proposed to be named after an individual, that person shall have attained local or national prominence via significant contributions in any field of endeavor. Such contributions or the significance of their place in history shall be clearly established beyond the generation of the contribution. Individuals so recognized shall no longer be active in his/her career. Further, the individual for whom a portion of a school building or school grounds is to be named must be shown to have broad-based, long-term impact to the school district community.

Collections of works, memorials, or other major gifts to the school district may be acknowledged and named by individual schools, subject to the district's policy and procedures for accepting donations. Prior to accepting such donations and naming, a plan for maintenance and upkeep must be identified and presented to the school Board.

The Board retains the right to make final determination in the naming of buildings, major portions of school buildings, or school grounds. This policy notwithstanding, it is the intent of the Board that naming of portions of the building and school grounds occur infrequently and on a limited based.

Policy adopted:
