

## Changing an expired Google password.

1 – During a login to Google, if your password has expired you will see a window similar to this:

A screenshot of the Google password creation interface. At the top left is the Google logo. Below it, the word "Welcome" is displayed. Underneath "Welcome" is a small profile icon followed by the email address "@nhps.net". The main heading is "Create a strong password", followed by the instruction "Create a new, strong password that you don't use for other websites". There are two input fields: the first is labeled "Create password" and has a blue border; the second is labeled "Confirm:" and has a grey border. Below the "Confirm:" field, the text "At least 8 characters" is visible. To the right of the "Create password" field is an eye icon. At the bottom left is a blue arrow pointing left with the text "Back", and at the bottom right is a blue button with the text "Next".

**\*\*NOTE\*\*** Actual screen may vary slightly depending on the device.

2 – Fill in both the **Create Password** and **Confirm** boxes with the new password.

The screenshot shows a Google account creation interface. At the top left is the Google logo. Below it, the word "Welcome" is displayed. Underneath "Welcome" is a profile icon and the email address "@nhps.net". The main heading is "Create a strong password", followed by the instruction "Create a new, strong password that you don't use for other websites". There are two input fields: the first is labeled "Create password" and the second is labeled "Confirm". Both fields have a right-pointing arrow icon inside them. Below the "Confirm" field, the text "At least 8 characters" is visible. At the bottom left, there is a "Back" button with a left-pointing arrow, and at the bottom right, there is a blue "Next" button. A small eye icon is located to the right of the "Create password" field.

3 – Click **Next**

4 – Your password has been successfully changed. There is no confirmation screen, you will simply access the device or service you were attempting to access. If the passwords do not match, or do not meet the requirements you will remain on the password change screen.
