This letter is neither a citation nor a notification of proposed penalty, which, according to the CONN-OSHA Act, may be issued only after an inspection or investigation of the workplace. If we do not receive a response from you by **February 10, 2025**, indicating that appropriate action has been taken or that no hazard exists and why, an inspection may be conducted.

Please note, however, that CONN-OSHA selects for inspection a random sample of cases where we have received letters in which employers have indicated satisfactory corrective action. This policy has been established to ensure that employers have actually taken the action asserted in their letters.

Finally, any action taken by you in this matter will not automatically remove your workplace from the possibility of an unannounced inspection by duly authorized representatives of CONN-OSHA in accordance with routine scheduling procedures currently in effect.

You are requested to post this letter and a copy of your response to it where it will be readily accessible for review by all of your employees.

If you have any questions concerning this matter, please contact this office. Your personal support and interest in the health and safety of your employees is appreciated.

Very truly yours,
