The Monk Center for Academic Enrichment and Performing Arts is proud to partner with the New Haven Public School System. Our dedicated staff welcomes the opportunity to bring fun and enriching experiences to area students.

PROPOSAL:

Fee: \$200.00 per hr. per 15 Students

The Monk Center will provide arts and academic enrichment modules two or more days per week at multiple area schools. During the month of September we brought arts and STEM instruction to students at Barnard, Wexler/Grant and Davis. We are currently staffed to support up to four schools and are prepared to provide instruction to several groups of students simultaneously. Groups will be limited to fifteen students and will be grade level specific.

Curriculum Module Menu:

• Literacy, Technology, and Film Production: (Grades 3-8)

Students will use iPads, and other devices to enhance creativity and social-emotional development. Students will read group novels and adapt creative ideas presented in literature to short films. Students will work in small groups to write scripts, block scenes, act, direct, shoot, and edit movies. Students will use iMovie to film movie trailers and/or short films. At the module's completion, students will receive a copy of their group's movie. (A Film Premiere is a possibility.)

• Dance: (Grades K-8)

Students will develop kinesthetic intelligence, learn to express themselves, and learn to communicate within the constraints of the medium of the body. Students will learn various genres of dance including **HBCU Style**, Hip Hop, Ballet, Modern, and/or Jazz.

Pre-Engineering: (Grades K-8)

Using play as a learning medium, students will have fun learning basic engineering concepts. They will explore and create while building various structures, both large and small. Students will use higher order thinking skills while collaborating with peers on the construction of marble raceways, simple machines, large creative structures, tents made from ball and rod sets, and

remote-controlled Lego vehicles. Students will enjoy other construction and STEM activities, as well.

• Future Physicians: (Grades K-8)

Students will utilize human anatomy aprons, human anatomy models, research skills, online games, working stethoscopes, blood pressure cuffs, blood oxygen oximeters, books, videos, and more to learn about the human body, its systems, and their functions.

• Chess: (Grades 2-8)

Students will learn to strategize, concentrate, think logically, overcome obstacles, identify patterns, and categorize information while playing chess. Students will develop problem-solving skills while improving patience, focus, and self-discipline.

• Creative Writing and Spoken Word: (Grades 4-8)

Students will learn to express their world through spoken word poetry. Students will have the opportunity to process and express their world as they know it, and to reflect upon its issues and ills through creative writing and spoken word.

Constitutional Law and Mock Trial: Grades (4-8)

Students will learn the basics of civil and criminal law. Students will argue assault and battery, larceny from a person, larceny from a building, vandalism, and other civil cases. Students will role play plaintiffs, defendants, witnesses, jurors, and attorneys.
